

Purvang Suvagiya

Gujrat, India | +919408611130 | purvangsuvagiya@gmail.com | [Portfolio](#)

Flutter developer with 1.5+ years of experience delivering 10+ production mobile apps for education, retail and enterprise clients. Strong in Flutter & Dart, Clean Architecture and BLoC; experienced in end-to-end product delivery (Firebase, Razorpay, Google Maps) and building AI & workflow automations with n8n to streamline operations. Proven record delivering client-facing apps (Play Store / App Store) and enterprise integrations.

EXPERIENCE

Prepseed | Flutter Developer | July 2024 - Present

- Working as a full-time Flutter Developer in a client-focused company, developing **10+ cross-platform applications** for educational institutions and different clients.
- Gained comprehensive expertise in Flutter ecosystem, mastering advanced state management patterns, architecture design, and seamless API integrations.
- Build scalable solutions serving **1000+ active users** including school management systems with real-time features and marketing analytics platforms.
- Collaborated in **multi-client agile teams**, enhancing communication and project delivery across dynamic requirements.

Smollan | Flutter Developer Intern | May 2024 - July 2024

- Collaborated with a dedicated Flutter team to create **high-quality applications and web solutions** for Google client projects, meeting enterprise-level standards.
- Developed comprehensive applications including retail training platforms, business app builders, and interactive showcase systems.
- Built solutions **deployed at Google Singapore headquarters** and developed applications live on Google Play Store.
- Strengthened teamwork and adopted professional development practices in a **fast-paced enterprise environment**.

Brands.live | Flutter Developer Intern | January 2024 - April 2024

- Immersed in Flutter development for three months, gaining **deep insights into mobile app development** and mastering complex UI implementations.
- Developed production-ready applications with sophisticated layouts and robust backend integrations.
- Acquired comprehensive understanding of Flutter framework, becoming proficient in **all aspects of cross-platform development**.

SKILLS

- **Cross-Platform Development:** Flutter, Dart, JavaScript
- **Automation & AI:** n8n (workflow & process automation)
- **Backend & Cloud:** Firebase (Auth, Firestore, Storage, Crashlytics, FCM), Appwrite
- **Architecture & State Management:** Clean Architecture, MVVM, MVC, BLoC, Provider, GetX
- **Collaboration & Tools:** Git/GitHub, Agile/Scrum, Jira

ACHIEVEMENTS

- Apps deployed at Google HQ Singapore.
- Delivered 15+ live apps on Play Store & App Store.
- Developed a portfolio of live client apps spanning schools, enterprises, and healthcare, all deployed on Play Store & App Store and actively used by 1,000+ users.

EDUCATION

G H Patel College of Engineering & Technology | July 2020 - May 2024

Bachelor of Engineering Computer Engineering

(CGPA:8.34/10)

PROJECTS

Prepseed (Client Apps — Live on Play Store & App Store)

- **Education & Coaching (JATF, SAS, Keystone, Udgam, Rhythm Rumble, Aura Toddlers, Shanti Juniors):** Built multi-role platforms and school/hostel systems with room assignment, check-in/out, prayer attendance, planners/tests, homework/classwork, complaint & leave workflows, fee payments (Razorpay) and real-time bus tracking (Google Maps).
- **Enterprise & Business (Siddhi Printech, Anant Xerox, Yellow Spot):** Delivered order/operations and CRM apps for printing and outdoor advertising — features include bulk order tracking, secure file upload, employee/machine tracking, zone-wise proposals and reporting.
- **Utility & Healthcare (JI One Tap, Dr Arth):** Built owner→employee one-tap alert system (JI One Tap) and a tri-role medical appointment system (Dr Arth) with scheduling, document uploads and patient history.

Smollan (Google Client Projects)

- Contributed to 4 flagship retail & training apps including **AI-Experience** (deployed at **Google HQ Singapore**) and **Tablet Ambassador** (Play Store). Focus: rich UI/animations, quizzes, campaign & reward management, integrated chatbot & Firebase analytics.

Brands.live (SnapX App)

- Built **SnapX**, an SME poster-creation app that auto-generates branded social creatives from user details; backend on Laravel for secure storage and scalable poster management.
